Publications

I. Monographs

II. Articles in journals and refereed proceedings

1Russian translation: Differentsialnye Uravnenia 13 (1977) 427-442.

45. Local optimality conditions and Lipschitzian solutions to the Hamilton-Jacobi equation, with R.B. Vinter, SIAM J. Control and Optimization 21 (1983) 856-870.

46. On the conditions under which the Euler equation or the maximum principle hold, with R Vinter, Applied Math. and Optimization 12 (1984) 73-79.

52. The value function in optimal control, Proceedings of the Joint IEEE-CDC meetings, Fort Lauderdale, December 1985.

59. On connections between the maximum principle and the dynamic programming technique, with R.B. Vinter, in Mathematics for Optimization (J.B. Hiriart-Urruty, ed.) Mathematics Studies 129, North Holland (Amsterdam), 1986.

80. The sensitivity of optimal control problems to time delay, with P. Wolenski, Siam J. Control and Optimization 29 (1991) 1176-1215.

125. Nonconvex duality in optimal control, with C. Nour, SIAM J. Control and Optim., in press.

126. Hamilton-Jacobi characterization of the state constrained value, with R. Stern, Nonlinear Analysis 61(2005), 725-734.

127. The maximum principle in optimal control, J. Cybernetics and Control, in press.

129. Continuity of solutions to a basic problem in the calculus of variations, Annali Scuola Normale Superiore Pisa, in press.
