

Class Status: Freshman
Major: Advertising and Promotion

On a personal level, I am entering college in hopes of eventually getting degrees and making a career out of my education. While in college I will experience life changing events and meet friends that I will have forever. I will do things I won't have the opportunity to do ever again, and I will take them and cherish them. Hopefully I will gain a better insight as to who I am, and learn things about me that I have never known.

On a professional level, I want to get my bachelor's degree in Business Advertising as well as my Masters degree. I want to maintain a gpa above a 3.5 throughout all my years here at Western. I hope to internship at an agency in Chicago, Illinois or New York City, New York. While I'm here I hope to work part time and gain all experience I can possibly get by joining RSO's and helping out the community. Hopefully in ten years I will be a successful business woman with my own family.

Quote: "A ship is safe in harbor, but that's not where ships are meant to be."
