Bradley Horstman

A creative and efficient jack-of-all-trades with project management experience complimented by a solid background in print and web interface design. Proven design and programming skills in a fast paced, multi-task environment. Effective HTML programming and development skills, Macintosh computer operating systems knowledge, and website problem solving skills for multi-million dollar clients.

Associated Employment & Related Skills

Exit 7, Inc. - 1999 to Present

Art Director - 45K

- Administered a system for organizing and storing files which reduced searches and increased productivity.
- Made company decisions and purchases for products ranging from office supplies and furniture to the latest upgrades and software.
- Orchestrated dozens of QuickTime, QTVR and iPIX movies from raw video for multi-million dollar companies such as Gaylord Entertainment and Eli Lilly.
- Directed and coded a variety of Shockwave, Flash and CD-ROM's for promotional purposes utilizing HTML, DHTML, JavaScript, CSS and Lingo languages.
- Created 100's of original optimized graphics for the databases of www.grandoleopry.com, www.wsmonline.com, www.ryman.com and www.wildhorsesaloon.com.
- Operated and maintained multiple Macintosh computers and devices, along with solving TCP/IP and AppleTalk conflicts.

Daniel, Burton, Dean - 1998 to 1999

Graphic Designer and Multimedia Specialist - 27K

- Maintained a professional relationship with our clients in which I would participate in understanding and conceptualizing their needs.
- Designed layouts and graphics for both print and web specifications.
- Learned both HTML and JavaScript languages for www.watertank.com, DBD's first internet project in which I took full responsibility for its coding and design.
- Designed, coded and developed the DBD promotional CDROM which lead to various other client projects as well as opening a new avenue for the company.
- Created another CDROM for Versteel, a furniture company, in which I directed the project with the clients.
