

PROFESSIONAL SERVICE

A considerable amount of time and effort has been spent during the past 17 years providing service to professional associations. Recently, I was elected to fulfill the offices of Vice-President, President, and Past-President of Eta Sigma Gamma for a 6-year term in this national health education honor society. Other recent primary service was at the national level to the American Association for Health Education (AAHE) as Chair, Co-Chair, and Program Reviewer for the NCATE Program Review Committee. I have also served on the national Task Force on Revised Program Standards for Initial Programs in Health Education convened by AAHE between 2000 and 2002. I have been an associate editor and/or reviewer for international and national journals, a number of different publishers, and research consortiums. At the state level, I have been involved in the Michigan Department of Education health education initiatives related to curricular development, teacher testing, candidate preparation, and program evaluation. I was one of three Michigan representatives to the Chief Council of State School Officers (CCSSO) national initiative for the State Collaborative on Assessment of Student Standards/Health Education Assessment Project (SCASS/HEAP). At the local level, I have participated in a number of local school projects that allowed me to introduce health education candidates to real-world school practices.

Academic Association Memberships and Service Opportunities

Professional and Academic Association Memberships:

- ◆ Eta Sigma Gamma National Health Education Honorary (Life Member, 1993-present)
