

Hi my name is Matthew David Baker. Welcome to my website. I'm twenty years old, and a second year dance major at Western Michigan University. I enjoy most any type of dance including: jazz, ballet, modern, hip-hop, and some tap even though I don't actually know how to tap. I hope to someday perform professionally with a company or to eventually choreograph and be the artistic director of my own company. I have many other interests as well including sports, music, and sleeping. Although I don't necessarily get to enjoy all of those interests as much as I would like.
