

Name: \_\_\_\_\_ Name: \_\_\_\_\_ Name: \_\_\_\_\_

Your Maple assignment can be found on your instructors webpage. The assignment must be returned in the form of a Maple document. You must work on this assignment with a colleague or two. You may consult with your instructor until 48 hours before the assignment is due, but not after that time. You may care to use the following grading rubric to guide your proofreading of your assignment before you submit it.

	Form: Does this paper:
2	Restate the problems to be solved including the essential details?
2	Solve the questions that were originally asked?
1	Give acknowledgement where it is due (did you consult any people or resources)?
	Content: Does this paper:
5	Give a precise and well organized explanation of how the answer was found?
2	Use differential equations to aid the explanation?
2	Use illustrations to aid the explanation?
2	Define all variables, terms, and notation used?
4	Contain correct mathematics?
20	Total
