Dr. Kaminski - you have my word that:

- I wrote this entire application myself (except possibly including code from the course website examples) - in accordance with the guidelines in the course policies and syllabus, and the university policies as to what's considered acceptable student conduct. Any code (longer than a couple lines) used in this assignment which was created by someone else (even if changed slightly) or was written jointly with someone else is both clearly attributed (in a comment in the code) and described on the bottom of this cover page.
- The program code attached here did actually produce the output data files which are attached here.
- There was no editing of the code files or output data files after the attached programs produced them (except perhaps the font, font size and/or page-orientation for printing).
