PET 489
STUDENT TEACHING SEMINAR
Portfolio Rubric

Your professional teaching portfolio should reflect that you have mastered the NASPE Beginning Teacher Standards and are capable of providing instruction to meet the K-12 NASPE Standards. All materials MUST be those developed and implemented during the student teaching experience (lessons, units, reflections, pre-/post data). You are STRONGLY encouraged to make your portfolio a reflection of the way you want to be perceived as a young professional. Creativity is an asset, so include anything you do that may be uncommon (e.g., video clips, use of technology, letters to students and parents, bulletin boards, special activities or awards). You may not be comfortable including some of these components on your web site. If this is the case, you will need to submit a written description of contextual considerations relative to your inclusion of electronic materials with this rubric. Be sure your contextual statement includes the elements you have chosen not to post on your web site to avoid the loss of credit for that/those element(s). ALL materials must be included in your written documentation and portfolio summary if not on your web site. See the syllabus for the due date.

Components

/10 Resume
/10 Photographs
/10 Easy to find/follow arrangement of links/buttons (“user friendly”)
/10 Statement of educational philosophy
/20 Sample unit plans (health and physical education)
