**Strategy:** Anchored Instruction

**Appropriate Grade Level:** Kindergarten – 12\textsuperscript{th} grade

**Procedures/Steps:**
- Used in science to learn new vocabulary and adding to prior knowledge by introducing vocabulary through video clips.
- Decide on science theme and vocabulary words
- Find movie that includes vocabulary and theme
- Pick out clips that use the vocabulary
- Discuss vocabulary word one at a time, after each word, show clip and discuss more encouraging the students to put a picture to the words

**Comments and/or tips:**
- Teachers need to plan ahead
- Need to have a computer, TV screen, and projector
- Set up clips ahead of time and in order of being introduced
