Tips on Instruction for “low achieving students”

**Appropriate Grade Level:** students who are “at risk”

**Procedures/Steps:** When instructing take the following into consideration…
- Break instruction into small steps
- Cover material thoroughly
- Have students work in a whole class so that the teacher can supervise
- Make sure to call on everyone, and stay with a student until the question is answered
- Avoid interruptions and nonacademic conversations
- Maintain a level of difficulty, but keep the level obtainable

**Comments and/or tips:**
- Not all students need this type of instruction. It may be necessary to modify the above steps for faster learners.
